

## CLEANROOM STORAGE & FURNITURE

### Custom Polypropylene Lab Furniture

We provide the ideal cleanroom furniture solution! Our customizable cleanroom furniture and cabinets are fabricated from durable polypropylene which will provide the best solution for your gowning and cleanroom area.

Polypropylene can stand up to repeated daily sanitation, and is non-corrosive and non-conductive. It is free from particle generation and inhibits microbial growth. Also, our clients find using our products to be beneficial during their FDA audit inspections.

Glove Dispenser

Document Holder

Hamper

Hairnet Dispenser

Scrub Cabinet

Tall Garment Gown Cabinet

Mobile Gown Cabinet

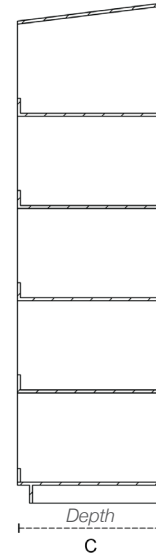

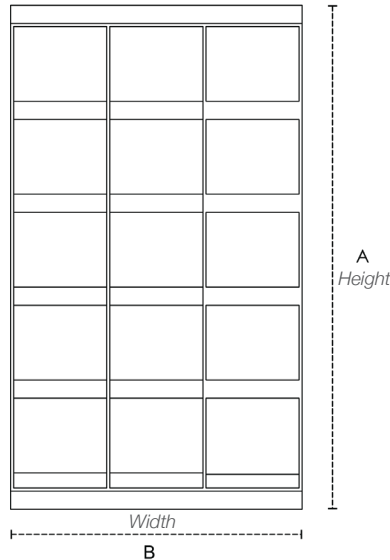

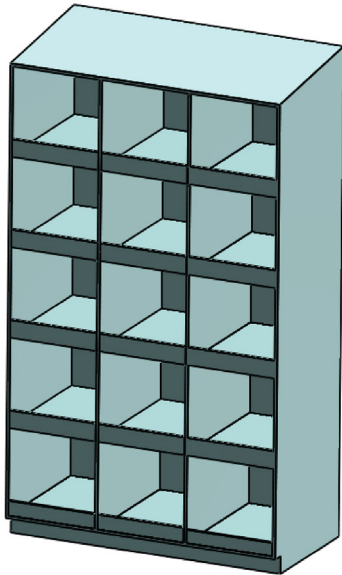

Shoe Bin

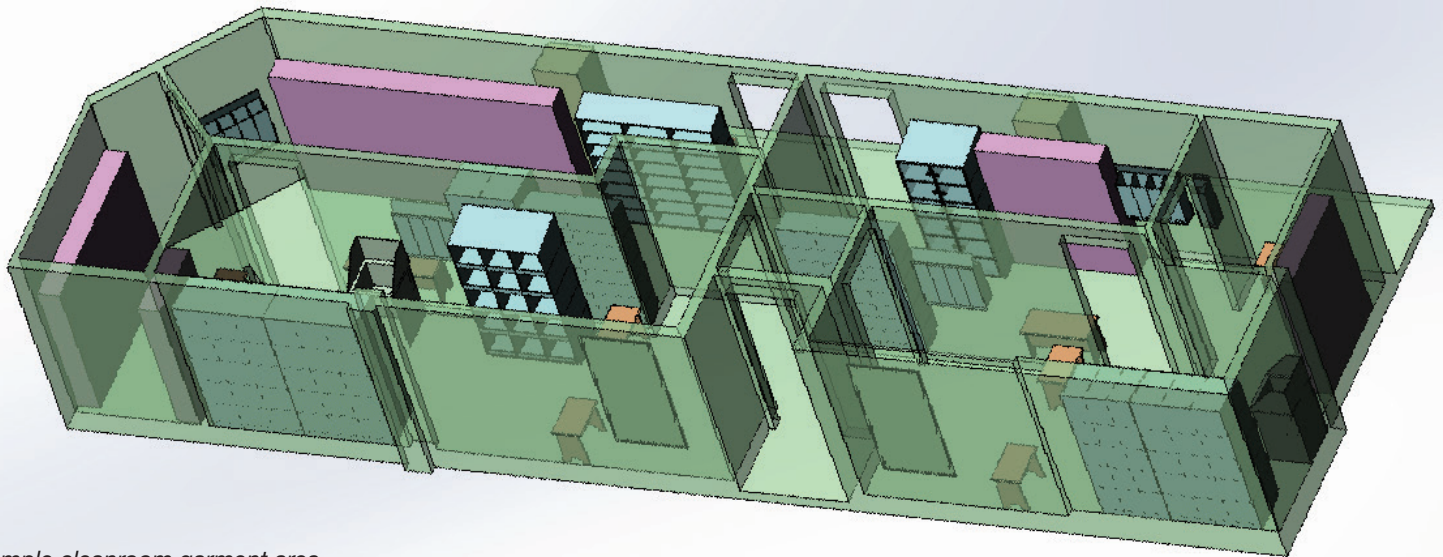

Plastic Concepts can design custom cabinets and storage to suit your needs. Let us know how many compartments you'd like and your dimension requirements. We will then create a rendering for your review. We can add casters, clear or solid doors and other features to enhance your lab.

**Let us take a look at your lab and share ideas to create the most efficient use of your space.**

### Our Products Can Be Customized To Meet Your Specifications

Choose the amount of compartments you need and provide dimensions to fit your space - we'll take care of the rest.
